

FROM THE DIRECTOR

Summer session is in full swing and I would like to thank you for your warm welcome to Online Learning. I am working with the team to accomplish a vision that will solidify our reputation as a pioneer in the innovative field of bringing law and policy education online with a human connection.

On the following pages, you will find our new Online Learning Newsletter. Each Term, we will issue a newsletter that communicates the amazing work of our Online Learning community.

I am committed to providing an online experience for students that is consistent with our on-campus experience. In addition to bringing the law online, this means teaching in a way that brings the vital human connection online. Walk the halls of VLS and you soon realize that it is a unique school, where the student experience extends far beyond the classroom to encompass everything from career counseling and strategic academic advising to involvement in special interest groups. I am eager to bring the full VLS community experience to our online students.

Online Learning will be woven into the fabric of VLS to provide increased flexibility for residential students who seek this flexibility in their learning trajectories. Once their doctrinal foundation is established, residential students broaden their educations with live-client experiences that carry them across the nation and world. Here in Online Learning, we will look for ways to serve all VLS students by offering a similar opportunity for expansion.

Unprecedented change is occurring in the work place and in higher education. Our Online Learning program positions our students to navigate these changes. Seeking an advanced degree may seem risky because the opportunity costs are high and the return on investment is uncertain. As a leader in online education for close to a decade, VLS is part of the solution. Poised to conduct smart, sustainable growth, our Online Learning program will evolve and equip students with the tools they need to be resilient. Speaking on behalf of the Online Learning team, we look forward to serving our students and stand ready to teach the next generation how to serve their communities and the world.

Sincerely,

[Professor Sarah M. Reiter](#)

SWAN SPOTLIGHTS

Chloe Castro JD'19, is no stranger to the need for innovative technology in the legal field. Chloe co-organized a Solutions Conference to “Disrupt the Stone Age,” which focused on the intersection of technology, law, and social justice. Chloe also chose to access an online course during her Semester in Practice at the Suffolk County District Attorney’s Office in Boston, Mass. She participated in Ethics and Restorative Justice, and like many residential students, Chloe found the flexible option of online courses beneficial while working towards her professional goals. Her training will be put to good use next year when she starts her legal career at the Miami-Dade State Attorney’s Office in Florida.

Nic Pritchett LLM'20 began working as a civilian attorney for the U.S. Army Corps of Engineers within the past year. Prior to that, he practiced civil litigation at a law firm in Texas for seven years and served as an active duty judge advocate in the U.S. Army for five years. As a judge advocate, he deployed to Afghanistan, Qatar, and Kuwait, where he witnessed significant environmental and social issues. Environmental law heavily impacts his work. This work includes reviewing fill and dredge permits under the Clean Water Act, Environmental Assessments and Environmental Impact Statements under the National Environmental Policy Act, and the implications of the Endangered Species Act on proposed projects. He decided to pursue an LLM in environmental law to develop additional expertise in these areas and to broaden his understanding of current environmental issues.
